SUMMARY

Results-driven IT Operations & Infrastructure Lead with hands-on expertise in technical support, Microsoft 365 administration, IT infrastructure, asset management, cybersecurity, vendor coordination and technology operations. Experienced in managing employee-facing IT environments, troubleshooting hardware, software and network issues, supporting secure and reliable systems, and coordinating IT procurement and technology projects. Strong ability to improve service delivery, resolve technical issues efficiently, manage IT assets and stakeholders, and implement practical solutions that enhance productivity, system availability and business continuity. Combines technical problem-solving, operational leadership and strong communication skills to deliver reliable and secure IT services aligned with organisational objectives.

WORK EXPERIENCE

I.T Lead | Plus Marketing Ltd **Feb 2024 - Present**

- Own end-to-end IT operations for 120+ users across 3+ business units and 4 countires, governing Microsoft 365, Active Directory, identity lifecycle, network infrastructure, and endpoint security.
- Authored and implemented a comprehensive IT Management Playbook spanning 6 governance domains, adopted as the organisation's definitive IT operations reference across all departments.
- Drove digital capability across 100+ staff through structured training programmes, vendor management, IT procurement, and licensing oversight, delivering cost-effective solutions within budget.

I.T Support Technician | Eklipse Technologies **Jan 2022 - Sept 2023**

- Supported enterprise network infrastructure by troubleshooting TCP/IP, routing, switching, VLANs, and connectivity issues to ensure high service availability.
- Gained practical exposure to mobile network infrastructure with a basic understanding of LTE/5G Packet Core (EPC/5GC) concepts, subscriber connectivity, and end-to-end data flow within mobile networks.
- Consistently met SLAs by resolving technical incidents within agreed response times while maintaining accurate technical documentation and knowledge base articles.

Customer Support Technician | Rej360 Holdings **October 2019 - June 2022**

- Delivered first-line and escalation support, diagnosing and resolving hardware, software, and connectivity issues across desktops, laptops, and peripherals to minimise downtime.
- Performed hands-on hardware repairs including component replacement (RAM, storage, NICs) across Windows/macOS workstations, ensuring rapid return to service.
- Consistently met SLAs, resolving customer support requests promptly while maintaining resolution documentation and knowledge base articles to improve first-contact resolution rates.

EDUCATION

HND Electrical Electronics Engineering (Telecommunication)

Moshood Abiola Polytechnic, Abeokuta

SKILLS

- **Technical Skills:** Windows 10/11/Server | macOS | Microsoft 365 | Active Directory | TCP/IP | VLANs | Firewalls | IP Routing | Basic LTE/5G Packet Core Knowledge | Telecommunications Infrastructure | AnyDesk | Endpoint Protection | MFA | Group Policy | GDPR | NDPR | SLA & Asset Management | Procurement | Hardware Repair | IT Governance | Policy Writing | Microsoft Office Suite | Data Protection | Risk Management

- **Soft Skills:** Problem-solving | Critical thinking | Communication | Stakeholder Management | Team Collaboration | Leadership | Attention to Details | Time Management | Adaptability | Training and Mentoring.
